Math Chapter 1 Learning Targets

- I can write the <u>value</u> of a number to hundred thousands. (value, digit, place)

- I can write whole numbers up to 100,000,000 in <u>numerals and words</u>. (standard form, word form, expanded form)

- I can <u>compare</u> and <u>order</u> whole numbers to millions.

- I can <u>round numbers</u> to the hundred thousands place.

- I can round and <u>estimate</u> whole numbers to solve real-world and mathematical problems through hundred thousands.

- I can decide which information is needed before solving a problem.

- I can explain/show the strategies I used to solve real-world problems, using pictures, numbers, or words.
