Grade 3 Level II Math Enrichment

Unit 3 – Subtraction – Math Targets

- I can solve number sentences that involve subtraction basic facts and unknowns.
- I can use an input/output rule for subtraction to solve problems.
- I can round and estimate whole numbers to solve real world and mathematical problems through thousands.
- I can find 10,000, 1,000, and 100 less than a given 4 or 5 digit number.
- I can subtract whole numbers to the thousands.
- I can subtract whole numbers to the thousands (with zeros).
- I can check for reasonable solutions by checking my answers using the relationship between addition and subtraction.
- I can explain/show using pictures, numbers or words how I correctly solve real world addition or subtraction problems
